

Introduction to SAP S/4HANA Simple Logistics

- **Overview of SAP Simple Logistics**
 - Introduction to SAP S/4HANA Simple Logistics
 - Key Features and Innovations in S/4HANA
 - SAP Fiori User Experience and Its Role in Logistics
 - Integration with Other SAP Modules and S/4HANA Components

SAP S/4HANA Material Management (MM)

- **Material Master Data Management**
 - Configuration and Maintenance of Material Master Data
 - Material Types, Views, and Attributes
 - Advanced Topics: Custom Fields, Material Grouping
- **Procurement and Purchasing**
 - Purchase Order Management and Processing
 - Integration with Supplier Relationship Management (SRM)
 - Advanced Topics: Contract Management, Supplier Evaluation
- **Inventory Management**
 - Inventory Transactions and Document Types
 - Stock Overview, Valuation, and Reporting
 - Advanced Topics: Physical Inventory, Batch Management, and Serial Numbers
- **Logistics Invoice Verification**
 - Invoice Processing and Verification
 - Integration with Accounts Payable and Procurement
 - Advanced Topics: Invoice Blocking, Special Invoice Scenarios

SAP S/4HANA Sales and Distribution (SD)

- **Sales Order Management**
 - Sales Order Creation, Processing, and Delivery
 - Integration with Inventory Management and Shipping
 - Advanced Topics: Advanced Order Types, Order Processing Optimization
- **Billing and Invoicing**
 - Billing Document Creation and Management
 - Integration with Accounts Receivable
 - Advanced Topics: Credit Management, Complex Billing Scenarios
- **Pricing and Conditions**
 - Pricing Procedure Configuration and Maintenance
 - Condition Records and Condition Technique
 - Advanced Topics: Pricing Enhancements, Discount Management
- **Shipping and Transportation**
 - Delivery and Shipment Processing
 - Integration with Transportation Management
 - Advanced Topics: Advanced Shipping Notifications (ASN), Freight Calculation

SAP S/4HANA Production Planning (PP)

- **Production Planning and Control**
 - Master Data: Bill of Materials (BOM), Routings, Work Centers
 - Production Order Processing and Execution
 - Advanced Topics: Demand Management, MRP (Material Requirements Planning)
- **Shop Floor Control**

Flat No: 506,5th Floor, Nilgiri Block, Aditya Enclave, Ameerpet ,Hyd -5000038.

SAP SimpleLogistics

- Order Confirmation and Production Execution
- Integration with Inventory Management
- Advanced Topics: Production Analytics, Real-Time Monitoring
- **Capacity Planning**
 - Capacity Planning and Scheduling
 - Integration with Production Orders and Work Centers
 - Advanced Topics: Advanced Capacity Planning, Resource Optimization

SAP S/4HANA Quality Management (QM)

- **Quality Planning**
 - Quality Inspection Planning and Master Data
 - Inspection Lot Creation and Management
 - Advanced Topics: Quality Inspection Integration, Sampling Procedures
- **Quality Inspection**
 - Inspection Process and Execution
 - Integration with Production and Procurement
 - Advanced Topics: Defect Management, Quality Notifications
- **Quality Control**
 - Quality Certificates and Reporting
 - Advanced Topics: Statistical Process Control, Quality Analytics

SAP S/4HANA Warehouse Management (WM)

- **Warehouse Structure and Configuration**
 - Warehouse Layout and Master Data
 - Storage Types, Sections, and Bins
 - Advanced Topics: Complex Warehouse Scenarios, Cross-Docking
- **Inbound and Outbound Processes**
 - Goods Receipt, Putaway, and Picking
 - Integration with Inventory Management
 - Advanced Topics: Warehouse Task Optimization, Automated Storage Solutions
- **Warehouse Order Management**
 - Warehouse Order Creation and Processing
 - Advanced Topics: Dynamic Storage Locations, Warehouse Replenishment

SAP S/4HANA Advanced Topics

- **Integration with SAP Leonardo**
 - IoT Integration for Logistics
 - Advanced Analytics and Machine Learning
 - Blockchain for Supply Chain Transparency
- **Analytics and Reporting**
 - Real-Time Reporting with SAP Fiori and Embedded Analytics
 - Custom Reports and Dashboards using SAP HANA
 - Advanced Topics: Predictive Analytics, Data Visualizations
- **Optimization and Innovations**
 - Process Optimization Techniques
 - Implementing Innovations and Best Practices
 - Advanced Topics: Digital Transformation in Logistics, Future Trends

SAP SimpleLogistics

Hands-On Projects and Case Studies

- **Practical Implementations**
 - Real-World Scenarios in SAP Simple Logistics
 - End-to-End Process Configurations and Integrations
 - Advanced Topics: Custom Solutions and Enhancements
- **Case Studies**
 - Industry-Specific Implementations and Success Stories
 - Lessons Learned from Large-Scale Deployments
 - Advanced Topics: Change Management and User Adoption Strategies
